BBA Celebrates 25 Years of Service Excellence

Elmsford NY, March 15, 2010 – BBA Project Inc. today announced today announced the celebration of 25 years in business.

Since 1985, BBA has been providing transit procurement services, supporting innovation in the industry. The company's commitment to innovation and clients has been the key to the company's success over the years—and it will drive the company's ongoing commitment to deliver unprecedented value and opportunity for clients, employees, and partners.

Commenting on the company's growth since its inception, BBA Founder and President, Junichi (Jim) Kojima said, "*I am delighted with the success BBA has enjoyed. Our ability to listen to our clients, analyze their needs and present the best array of solutions has brought us to where we are today – the source clients turn to when in need. As I look forward, the future will undoubtedly bring many exciting advancements including opportunities in new applications such as high speed rail.*"
